PERSONAL PROJECTS

Do or Do Not. 08/2021 - 09/2021

Created a social task-managing full-stack web application that allows you to create, share, edit (drawing and image importing features included), and complete tasks with users on your friends list. Includes user authentication, a friends list (received and sent friend requests) and friend alerts (ex. notifying a user when a friend has completed a shared task). Uses Django as the backend web framework and React.js as the frontend library. All data is queried from and stored in a PostgreSQL database using a ReST API developed with Django. Try it here: [Do or Do Not](#).

Love and Pain Experiment. 04/2021 - 08/2021

Created a full-stack web application to process data for an experimental questionnaire. The questions, possible answers, and user input is stored in a MySQL database. A Python based ReST API queries and manipulates the data. The frontend web app uses React.js to present the survey. Upon completion, a chart is displayed which is meant to prove a psychological theory. Try it here: [Love and Pain](#).

Discord Utility Bot. 10/2020 - 12/2020

Developed a Discord bot that performs a variety of functions for users such as calling a Lord of the Rings or Star Wars ReST API which returns a random quote. The random quote along with the character's name who said it are then placed in a YouTube search to pair its respective movie scene in the response to the user. Other functions include but are not limited to playing music per request and remembering user provided information (stored in a MySQL database).

TECHNOLOGIES

Python, JavaScript, React.js, Django, Flask, SQLAlchemy, Bootstrap, PostgreSQL, MySQL, Git, GitHub, Firebase, Heroku

CERTIFICATIONS

Data Structures Certificate UC San Diego (Coursera). 06/2021 - 08/2021

Algorithmic Toolbox Certificate UC San Diego (Coursera). 05/2020 - 07/2020

EDUCATION

State University of New York at Old Westbury. 01/2011 - 05/2014. B.A. in Psychology

Crane School of Music. Focus in Classical Guitar. 01/2011 - 03/2011

EMPLOYMENT

Store Manager - LGX. Garden City, NY 01/2018 - 08/2021

Sales Associate - LGX. Garden City, NY 03/2016 - 01/2018
